

TANVI SABLE

Data Analyst | Power BI Developer

9021449858 | tanviofficial25@gmail.com | LINKEDIN | GITHUB | PORTFOLIO | PUNE, INDIA

PROFESSIONAL SUMMARY

Data Analyst skilled in **Power BI, SQL, Python, Excel**, with experience in building **end-to-end analytics solutions** (ETL → modeling → dashboards → insights). Proven ability to deliver KPI-driven dashboards, automate workflows, and integrate AI-powered solutions, improving efficiency and business decision-making.

SKILLS

- **Languages And Query:** SQL, DAX, M Query, Advanced Excel, VBA/Macros, Python (Pandas, NumPy, Matplotlib, Seaborn)
- **BI and Visualization:** Power BI (Desktop, Service), Power Query, Data Modeling, KPI Reporting, Data Storytelling
- **Analytics and AI:** Machine Learning, Statistical Analysis, EDA, Power Automate, Data Warehouse and Lakehouse
- **Core Competencies:** Data Cleaning, Data Validation, ETL, KPI Reporting, Data Analysis, Stakeholder Management

AI AND ANALYTICS EXPERIENCE

- Engineered AI-driven automation workflows using n8n and LLMs, reducing repetitive analyst tasks by 30–40% and enabling scalable, on-demand insight generation
- Designed data models & dashboards, improving report performance and delivery efficiency.
- Implemented GenAI-based solutions (chatbot & automated insights) to streamline data analysis and reporting

WORK EXPERIENCE

DATA PROCESSING ANALYST | Testrig Technologie

November 2024 – December 2025

- **Automated Excel workflows** using VBA & formulas, reducing manual processing time by **20%** across reporting cycles.
- Improved data accuracy by **15%** through data cleaning, validation, and preprocessing. Analyzed structured datasets using SQL & Excel, generating insights to support business decisions.
- Built **SQL queries** and **Excel reports** to extract and summarize business data, enabling faster turnaround for recurring stakeholder reporting needs.

JUNIOR DATA ANALYST | Novarties Tech System

July 2024 – October 2025

- Created **10+ KPI dashboards**, increasing visibility into key business metrics and decision-making efficiency. Reduced manual reporting effort by **26%** by automating Excel-based workflows.
- Streamlined **end-to-end analytics** process (data extraction → analysis → reporting), improving delivery efficiency by **20%**.
- Conducted exploratory data analysis on **50,000+ records**, uncovering 3 key trends that directly informed quarterly business strategy and improved forecast accuracy by **18%**.

PROJECTS

HEALTHCARE OPERATIONS AND PATIENT FLOW ANALYTICS | Power BI, Power Automate | [VIEW PROJECT](#)

- Built interactive dashboards analyzing **50K+ patient records across 5 departments**, tracking wait time, no-show rate
- Identified patterns in appointment delays and no-shows, improving scheduling efficiency by **19%**
- Integrated Power Automate alerts for real-time monitoring and faster operational response. Reduced average patient wait time analysis turnaround by 35%.

SALES INSIGHT AND REGIONAL REVENUE ANALYTICS | Python, Power BI | [VIEW PROJECT](#)

- Processed and analyzed **50K+ records across \$1.2B+ revenue data** using Python and Power BI
- Identified top-performing product contributing **35% of total revenue**
- Built interactive dashboards with multiple KPIs for regional and product-level analysis, Improved reporting efficiency by **25%** and enabled data-driven sales decisions

YOUTUBE PERFORMANCE PREDICTION USING MACHINE LEARNING | Python | [VIEW PROJECT](#)

- Built a **regression model** to predict video views using engagement metrics (likes, comments, category)
- Analyzed **200+ video records** to identify key drivers of performance.
- Achieved $R^2 = 0.81$ predictive accuracy using Scikit-learn, enabling better content strategy and performance forecasting.

CERTIFICATIONS

- **DATA ANALYTIC ESSENTIALS** – Cisco | [VIEW](#)
- **CAREER ESSENTIALS IN DATA ANALYSIS** – Microsoft and LinkedIn | [VIEW](#)
- **SQL 5-STAR BADGE** – Hacker Rank | [VIEW](#)
- **MICROSOFT EXCEL**– Udemy | [VIEW](#)

EDUCATION

B.TECH | Government College Of Engineering Jalgaon

June 2020 - June 2024
